ISO 14001 & 9001 AUDIT

5th March 2009

SBU are pleased to announce that after an external audit from the regulators for the ISO 14001 and 9001 we received a glowing report. There were no non-conformances and only four observations to work on. This means we can look forward to another year of quality and environmentally conscious projects.

SBU aims for continual improvement in all areas of our business in order to maintain these certifications.
