

## NEWS RELEASE

### **SBU Short listed for Yorkshire Water Partner Awards Category – World Class Asset Management**

9<sup>th</sup> June 2011

SBU are very pleased to announce they have been short listed for the Yorkshire Water Partner Awards in the category of World Class Asset Management. Below is a description of what the Partner Awards are, taken from the Yorkshire Water website.

#### **Partner Awards**

The value that we place upon our partners is growing year on year and without their continued ideas and innovation we wouldn't be able to achieve our vision. The Partner Awards are a great example of the increasingly strong relationships we are building with our partners and provide fitting recognition of the excellent work all our partners are delivering.

We strive to maintain a friendly and caring work environment for all our colleagues and teamwork is one of the cornerstones of our success. We encourage teams to celebrate their achievements internally by holding local events and nights out.
